

South Brunswick Township Transportation Meetings Set

January 18, 2012

Beginning Thursday, Jan. 26 at 12:15 p.m. the Aging in Place PARTNERSHIP (AIPP) will meet with all those interested in learning about [South Brunswick Transportation](#).

LEARN MORE ABOUT THE
COMMUNITY CAR PROGRAM.

Starting on Feb. 9, these new bi-monthly sessions will be held every other Thursday from 11 a.m. to 1 p.m. in the lobby of the Senior Center and run through April 19.

Learn more about the Community Car program scheduled to begin April 1. Sign up

to become a Volunteer Driver. The car you drive is provided by the EZ RIDE program. It's insured, with gas and maintenance included. Volunteering just a few hours makes a ride affordable for someone trying to make ends meet and be self-sufficient. Flexible schedules make it easy to meet your availability.

The AIPP team will be available to help riders and volunteer drivers register and make sure you are fully informed of this fabulous new service providing seniors and the disabled (must be mobile) with flexible, reliable and affordable options enabling decisions based upon needs, plans and, most important, in your own time.

A great many new opportunities for transit services have been or will be implemented in 2012. These meetings are opportunities to become fully informed, to learn more, to get answers and ask questions from the transportation committee of the Aging in Place PARTNERSHIP.

All the transportation actions have been created with residents in mind. Comments and suggestion remain of vital importance to help ensure this seamless transit plan meets Township transit needs not only now but for the future.

On March 8, those who attend will receive a newly printed copy of the County M-1 shuttle Traveler's Guide created by Pat Kay and produced by the County. This guide will help to make your County M-1 shuttle trips more meaningful whether heading to [New Brunswick](#) or points south.

In addition as part of the meetings you will discover special shopping days, learn about discounts, incentives and ways to find the easiest and best ways to connect to a variety of other transportation resources.

Questions? Contact Pat Kaye, Art Lee or Jacque@AgingInPlacePARTNERSHIP.org or 732-305-7079.

About this column: Jacque Rubel is the founder of the Aging in Place Partnership. The AIPP was created with the goal to provide information and resources enabling families 50 and over to make informed decisions when exploring options for retirement, the need or desire to downsize, when they no longer can or want to maintain a current home, are alone and need assistance, or require additional services and resources that are not currently available where they live.
