

# about us

## Commuter Shuttles

Reliable access to public transit

For more than 25 years, we have worked to reduce traffic by providing innovative transportation solutions.

During last year alone, we managed more than half-a-million passenger trips, saving more than 10,000 gallons of gasoline a day, while providing convenient and reliable mobility throughout the state's most densely populated counties.

In addition to the Shuttle Program, we manage the state's largest program of Vanpools and Carpools for businesses, colleges, universities and municipalities.

Our shuttles are equipped with GPS, Mobile Data Terminals and in-vehicle cameras to ensure safe, convenient travel every day of the year.

EZ Ride also offers innovative transportation solutions, such as bicycle and pedestrian services, car sharing, and transportation services for older adults and people with reduced mobility using a team of volunteer drivers.

Transportation

Commuters at Secaucus Junction typify those who choose shuttles for convenience and savings.

## Why Shuttle?

Passengers trust shuttles because they provide predictable, reliable transportation. Because they run at regular intervals during defined hours, they eliminate long waits and the need for schedules.

## Meadowlink's successful EZ Ride shuttles

Each weekday, Meadowlink connects major hubs such as Newark Penn Station, Secaucus Junction, Jersey City's Journal Square and the Rutherford train station, transporting more than 1,400 commuters on 17 routes and connecting them with 300 businesses in the state's most densely populated areas. EZ Ride shuttles also connect transportation centers with businesses, commercial areas and residential complexes.

## Shuttles drive value along with convenience

Studies also show that shuttles directly benefit employers and property owners in other ways.

Shuttles can reduce commutes by a half hour or more each way, making it easier for employers to retain their valued employees.

And shuttles increase real estate values for businesses and residential complexes by providing easy access to nearby shopping and transportation.

## Shuttle service can be affordably packaged

A shuttle program is an investment. Depending on distances and frequency of operation, costs will vary and can be shared or offset in a variety of ways.

Meadowlink is well experienced in customizing shuttle programs. We can identify co-sponsors and other participants. We also know how to tap public funding intended for traffic reduction and air quality improvement. Don't let the cost of a shuttle program deter you from its many benefits.

## Unsurpassed shuttle experience and service

Trust the experts in shuttle transportation. EZ Ride shuttles comfortably seat 20-25 passengers in a relaxing and eco-friendly vehicle. The fleet is regularly maintained and replaced every three years to ensure reliability. All shuttles are equipped with Global Positioning (GPS) devices and Mobile Data Terminals to provide real-time tracking and to ensure on-time performance. In-vehicle cameras enhance the safety of the passengers and drivers.

For more information on initiating a shuttle program for your business or residential complex, call Kinga Skora at **201.939.4242**. Or visit **[www.ezride.org](http://www.ezride.org)**

“Our company moved from New York City to Secaucus, which presented a challenging commute for our employees. With Meadowlink's EZ Ride shuttle service, we were able to keep our skilled and experienced workforce by enabling them to take public transportation to Secaucus Junction and have a shuttle take them the rest of the way to work.”
