

## About Us

At EZ Ride we believe that a safe, affordable & reliable transportation system is vital to maintaining our quality of life and promoting the economic growth of the region.

Transportation is a daily concern for commuters who cannot afford to drive to work, for older adults and people with disabilities who do not drive a car, and for businesses whose employees and customers may not have easy access to public transportation.

For over 30 years, we have helped people overcome transportation barriers by partnering with businesses and government to implement transportation programs and services like carpools, vanpools, shuttles, transportation for people with disabilities, biking & walking programs and even transportation with companies like Lyft and Uber.

EZ Ride is a non-profit organization and in 2013, was recognized for excellence in serving the needs of the community and named the Urban Community Transportation System of the Year by the Community Transportation Association of America. Whatever your transportation needs, EZ Ride is here to help.

- ✓ Disadvantaged Communities – Our resources are limited and disadvantaged communities are a priority.

### What do we offer?

- ✓ Conduct walking and biking safety presentations
- ✓ Help communities to conduct safety education & enforcement campaigns
- ✓ Assist with walk & bike audits and travel plans to apply for grants
- ✓ Provide group training for adult volunteers to walk and bike with kids to school
- ✓ In partnership with NJ Transit, we manage enclosed bike lockers at six train stations in Westfield, Summit, Rahway, Cranford, Roselle Park & Maplewood.

### Annual Recognition Event

Every year, we host a recognition event to celebrate the efforts of our champions - schools, municipalities and select individuals who promote safe walking and biking. The schools and municipalities earn points towards grants provided by NJDOT and Sustainable Jersey.

"The Bike Rodeo held at in Roselle High School was so popular that when the second one was held, all grades in the school were invited to participate. The program has definitely increased the number of students who bike to school. As a matter of fact, we had to install three additional bike racks."
