

About Us

At EZ Ride we believe that a safe, affordable & reliable transportation system is vital to maintaining our quality of life and promoting the economic growth of the region.

Transportation is a daily concern for commuters who cannot afford to drive to work, for older adults and people with disabilities who do not drive a car, and for businesses whose employees and customers may not have easy access to public transportation.

For over 30 years, we have helped people overcome transportation barriers by partnering with businesses and government to implement transportation programs and services like carpools, vanpools, shuttles, transportation for people with disabilities, biking & walking programs and even transportation with companies like Lyft and Uber.

EZ Ride is a non-profit organization and in 2013, was recognized for excellence in serving the needs of the community and named the Urban Community Transportation System of the Year by the Community Transportation Association of America. Whatever your transportation needs, EZ Ride is here to help.

Carpools

**A personalized
commuting network.**

More than 25,000 carpoolers participate in the program and contribute towards saving gas, tolls, and even the planet!

Why Carpool?

Carpooling is one of the oldest, most popular ways to share a ride. Co-workers, fellow students and neighbors who have a common destination get together and save on the cost of their commute.

Savings add up quickly – and can easily exceed \$2,000 a year – depending on the distance travelled, the number of passengers and the price of gas and tolls.

Carpooling is social and brings riders together. It's like social media – but on wheels and in person! By leaving their cars at home, carpool riders help reduce traffic, improve air quality and give the planet a break.

Emergency Ride

What happens when a carpool member has to stay late or has an emergency? Never fear - EZ Ride has got your back with the innovative "Emergency Ride Home" program. We guarantee registered riders up to three rides home per year to cover these situations.

We commute from Easton Pennsylvania, which is a little over an hour's drive. By carpooling I was able to save much more money than I would have if I was driving alone. It also has given me a chance to form a friendship with fellow-carpoolers, which goes a long way towards an enjoyable commute"
