

GET EVAL *Certified!*

EVAL or Electric Vehicle Adoption Leadership is a national certification funded by the U.S. Department of Energy. The program provides **recognition** and technical **assistance** to organizations supporting the adoption of workplace charging and other zero-emissions transportation options. Employers gain certification points by filling an online questionnaire to assess their efforts in supporting employees to travel sustainably. Visit [EVALcertification.org](https://evalcertification.org) to **get certified** today!

Gain industry recognition

Getting EVAL certified will amplify your organization's visibility as a leader in workplace charging and clean transportation.

Hire and retain talent

Research shows that workers believe their employers should do more for the environment. EVAL certification will help your organization showcase its commitment to sustainability, hiring and retaining mission-driven staff.

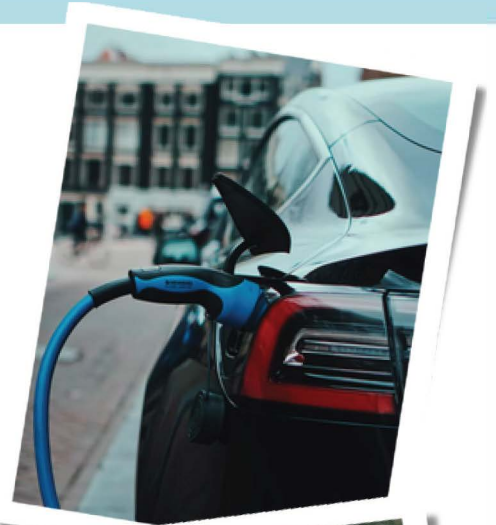

Meet sustainability goals

With EVAL, you can drive your sustainability plans while keeping clean transportation efforts front and center. Once certified, show your commitment to stakeholders and get access to many exciting benefits!

Increase property value

Property upgrades like EV charging infrastructure have proven to increase property value. EVAL highlights these improvements to potential tenants and buyers.
